CONFIDENTIAL

INDEPENDENT CYBERSECURITY AUDIT CERTIFICATE

Audit Firm: Apex Security Assurance LLP | Date: November 12, 2024

Scope of Audit: FolioQ Platform Core Cryptographic and Ingestion Infrastructure

Audit Results & Findings:

1. Vulnerability Assessment: Zero critical or high-severity vulnerabilities detected in external penetrations.
2. Transport Layer Security: TLS 1.3 enforced across 100% of perimeter API gateways.
3. Access Control: Multi-factor authentication (MFA) compliance verified at 100% for administrative staff.
4. Key Management: Master secret keys rotated every 90 days in compliance with NIST SP 800-57.
5. Penetration Testing Score: Overall security resistance rating of 98.4 out of 100.

Audit Conclusion:

Apex Security Assurance certifies that the FolioQ production platform adheres in full to SOC 2 Type II security trust service criteria without any exceptions or corrective action requests noted.
